

Assignment-1: Data Preprocessing

Asif Ahmed Neloy
CSIS 3290: Fundamentals of Machine Learning

Date: February 2, 2024

Assignment Details

- Assignment Available - Feb 1st, 2024.
- Submission Deadline: Feb 14th, 11:59 PM PST.
- Total Marks: 5.
- Submission Type: Submit your .ipynb file with the following naming format: yourname_A1.ipynb

Assignment Instructions

- Download the "House Price Prediction" Dataset from Blackboard or from [GitHub](#).
- Import all necessary libraries needed to complete the data pre-processing steps.
- You need to undergo a brief data preprocessing steps and prepare the data for modeling.
- For each data prep steps, you need to create a "markdown" cell to describe what steps you took and why it was necessary.

Marking Criteria:

- For all correct, runnable python code - 3 marks.
- Provide explanation of each steps - 2 marks.
- Late Submission - 0 marks.
